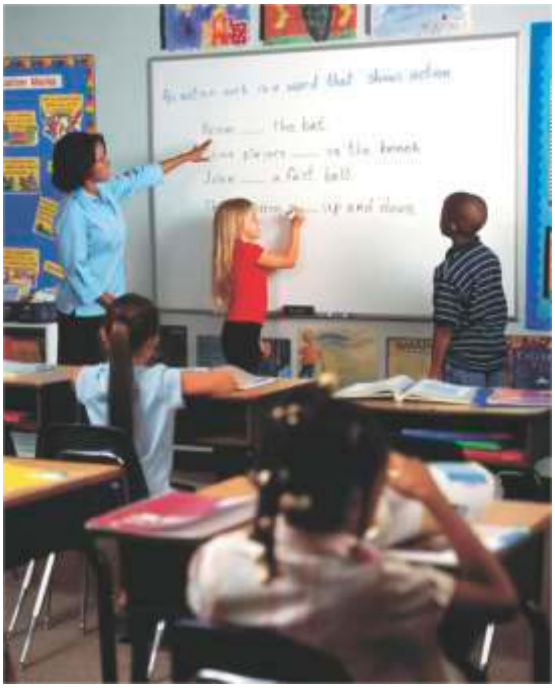
Whiteboard Enamel Specifications



Types of Whiteboard

Non-Magnetic	-	This is a specially coated MDF board and is the best value for money
Magnetic	-	This is specially coated steel and is a high quality surface which is the most popular option for schools and offices
Enamel	-	This is a glass-fused steel surface which is the most hardwearing option available and is the most expensive

Enamel boards are manufactured to order and can be made in custom sizes or in any of the standard sizes of Whiteboard Magnetic - See opposite page:

Product Features

- Ultra-smooth writing surface
- Improved erasability
- Greater colour contrast
- Enhanced visibility
- Greater ink adherence
- No volatile organic compounds are used
- 99% recyclable
- Less ink pressure required
- Enhanced ink contrast
- ISO 9001 approved

Enamel Whiteboard Specifications

Writeability	Can be written on with any dry-erase, semi-permanent, water-soluble, and/or permanent marker pen without damaging the surface
Visibility	Sharp, clear and distinct marker lines provide maximum colour contrast with the **Parrot Whiteboard Enamel** surface. It also minimizes glare and random light reflection
Erasability	Dry erase marker ink can be wiped off easily with a dry cloth or **Parrot Whiteboard Eraser Magnetic 145x55mm (BA0105)**. Crayon, semi-permanent and permanent marker pen inks can be removed with **Parrot Office Equipment & Whiteboard Cleaner (BA0201)**
Cleanability	All residues that remain after normal erasing can be removed by using **Parrot Office Equipment & Whiteboard Cleaner (BA0201)** or with **Parrot Aqua Wipes (BA0110A)** which use micro-fibre technology
Wearability	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel. High resistence to impact damage, abrasion, scratching, corrosion and colour fade.
Magnet Hold	The **Parrot Whiteboard Enamel** surface is ideal for all magnets and magnetic-impregnated materials without damaging the surface
Flame Resistant	The **Parrot Whiteboard Enamel** surface is 100% non-combustible

The e³ environmental ceramicsteel™

e³ CeramicSteel used in the manufacture of the **Parrot Whiteboard Enamel** complies with *Silver Certification criteria* which places major emphasis on the human and ecological health impacts of a products manufacture, making it the new industry standard for superior quality.

Forever Warranty™

The **Parrot Whiteboard Enamel** surface is warranted under Polyvision's Forever Warranty to provide a lifetime of durability and superior performance, when used for its intended purpose, as an Enamel Whiteboard or Chalk Board

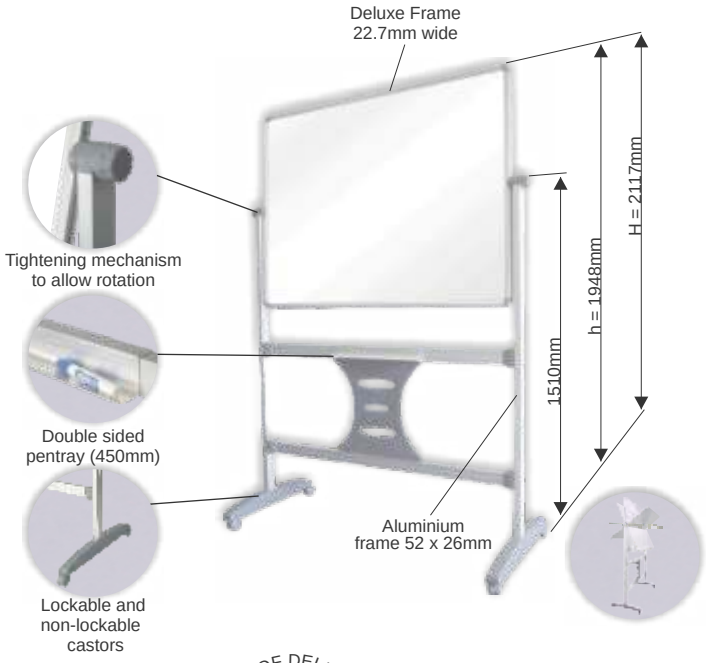
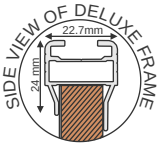
BD4269	Revolving Board Magnetic	1800 x 900mm

Product Features

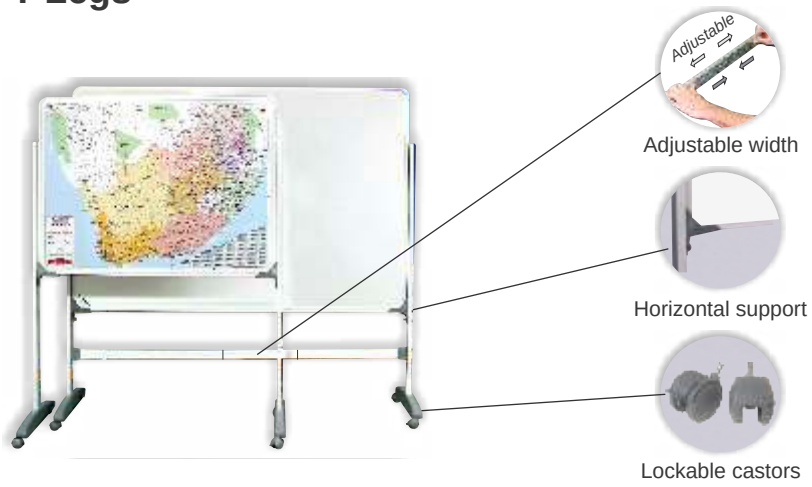
- Magnetic surface.
- Double sided pentray (450mm).
- Anodised aluminium frame.
- Double sided Whiteboard.
- Double cross bars ensure stability.
- Assembles easily without tools.
- Durable and stylish plastic cross bar stabilizer.
- Will pass through a standard door (2100mm diagonally) without disassembling.
- h = for boards 900mm in height.
- H = for boards 1200mm in height.





Board Supports

T-Legs



CODE	DESCRIPTION
BD9010	T-Leg Set *(for Boards up to 1500mm)*
BD9015	T-Leg Set - Adjustable (*for Boards 1600mm to 2400mm)*

Product Features

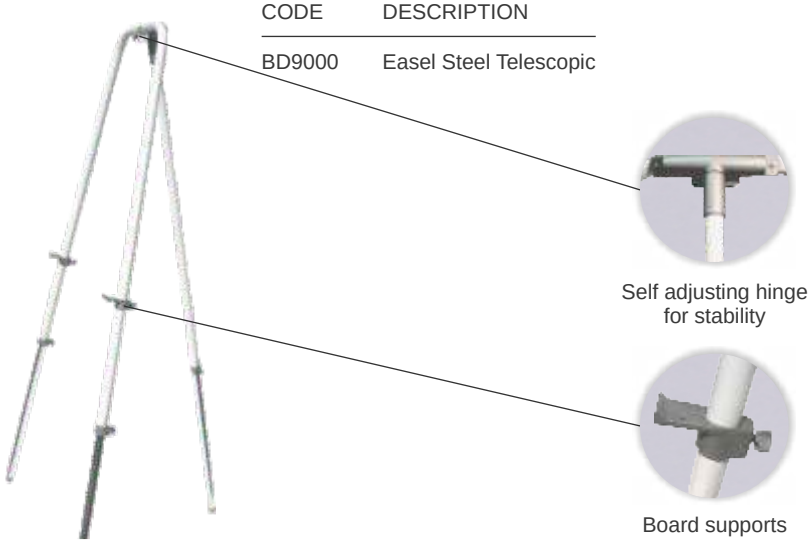
- Lockable and non-lockable castors.
- Horizontal support allows for height adjustment.
- Can be fitted to Standard Frame boards up to 2400mm.

T-legs Set for Boards up to 1500mm
Size: 1400 x 600mm.
Not recommended for boards larger than 1500 x 1200mm.
Board sold separately.
No crossbar required.

T-legs Set - Adjustable for Boards 1600mm to 2400mm
Size: 1400 x 600mm.
Not for boards smaller than 1600 x 1200mm.
Board sold separately.
Width adjustable crossbar.

Steel Easel

CODE	DESCRIPTION
BD9000	Easel Steel Telescopic



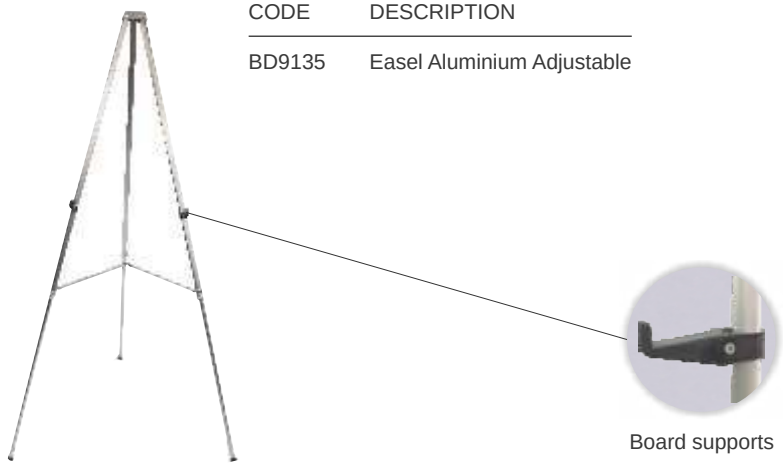
Product Features.

- Height adjustable board supports.
- Telescopic legs.
- Weight 4.58kg.
- Powder coated steel.
- Plastic foot end caps.

Folded size: 1060 x 700mm.
Fully extended size: 1000 x 1900mm.
Not recommended for boards larger than 1200 x 1200mm.

Aluminium Easel

CODE	DESCRIPTION
BD9135	Easel Aluminium Adjustable



Product Features

- Height adjustable board supports.
- Telescopic legs.
- Lightweight aluminium easel.
- Weight 1.32kg.
- Ideal for travelling.
- Supplied in retail friendly box.

Folded size: 890 x 90mm.
Fully extended size: 1600 x 880mm.
Not recommended for boards larger than 900x900mm.

See Page 88 - 89 for Artist Easel and Poster Frame Supports

BD2876	Chalk Board Non-Magnetic	2400 x 1200mm

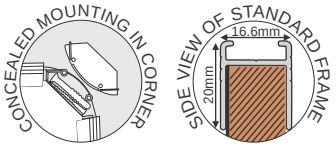
Black Chalk Boards can be made to order.

Boards larger than 1500 x 1200mm are supplied with two 450 x 35mm Chalk Rails.

Pricing for full length Chalk Rails available on request.

Product Features

- Concealed mounting (wall screws and masonry plugs supplied, 6mm).
- Additional mounting brackets for boards larger than 1500mm.
- Slide-in aluminium Chalk Rail (450 x 35mm).
- Chalk rail packed in back of board to ensure no damages while being transported.
- Can be used with the Easy Rail System (see page 26 & 27).
- Anodised aluminium frame.
- Can be mounted horizontally or vertically.
- Includes mounting instructions.
- Quality surface minimizes chalk ghosting.



Chalk Board Enamel Specifications

Types of Chalk Board

Non-Magnetic	-	This is a specially coated MDF board and is the best value for money
Magnetic	-	This is specially coated steel and is a high quality surface which is the most popular option for schools and offices
Enamel	-	This is a glass-fused steel surface which is the most hardwearing option available and is the most expensive

Enamel boards are manufactured to order and can be made in custom sizes or in any of the standard sizes of Chalk Board Magnetic - See following page:

Product Features

- Ultra-smooth writing surface
- Improved erasability
- Greater colour contrast
- Enhanced visibility
- Greater chalk adherence
- No volatile organic compounds are used
- 99% recyclable
- Less chalk pressure required
- Enhanced chalk contrast
- ISO 9001 approved

Enamel Chalk Board Specifications

Writeability	Superior, low gloss matte finish that readily accepts chalk while providing a sharp, unbroken line with less pressure and maximum surface adherence
Visibility	Its distinctive colour in conjunction with the no-glare matte finish provides maximum chalk-to-surface contrast (light/dark) for heightened visibility
Erasability	Erases easily with a dry cloth or a **Parrot Chalk Board Duster (BA0116)** while retaining minimal residual chalk dust and prevents 'ghosting'.
Cleanability	All residues that remain after normal erasing can be removed by using water, together with **Parrot Aqua Wipes (BA0110A)** which use micro-fibre technology
Wearability	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel. High resistence to impact damage, abrasion, scratching and colour fade.
Magnet Hold	The **Parrot Chalk Board Enamel** surface is ideal for all magnets and magnetic-impregnated materials without damaging the surface
Flame Resistant	The e³ ceramicsteel surface is 100% non-combustible

The e³ environmental ceramicsteel™

e³ CeramicSteel used in the manufacture of the **Parrot Chalk Board Enamel** complies with *Silver Certification criteria* which places major emphasis on the human and ecological health impacts of a products manufacture, making it the new industry standard for superior quality.

Forever Warranty™

The **Parrot Chalk Board Enamel** surface is warranted under Polyvision's Forever Warranty to provide a lifetime of durability and superior performance, when used for its intended purpose, as an Enamel Whiteboard or Chalk Board

See page 18 - 20 for Chalk Boards

Product Review	Most cost effective in its range	Hard coated Polyester surface, that is tear proof and well priced in its range	Most cost effective in its range, less chances of possible interference as the system is closer to the board than the IW1000	Known for it stability using ultra sound technology, this system is best for use in areas where there is lots of light or bright light.	This device is most commonly used in areas where the projection surface is too large to write on. From this device you have a mouse and keyboard in one	The device is best if you are looking for an all in one solution. It takes up minimal space on your boardroom table	The only system that offers you no presenters shadow. The only system that solves this problem. The best solution for having that ultimate professional look in your boardroom
Can there be interference?	Yes, sunlight and bright direct light can cause interference	No possibility of interference	Yes, sunlight and bright direct light can cause interference	Loud sounds may cause interferance	No, this system works on it's own 2.4G wireless frequency.	Yes, sunlight and bright direct light can cause interference	No, there is no possibility of interference.
Best for	Best for traveling trainers. The system is portable and can be used on a wall surface. The system can also be ceiling mounted for a permanent installation.	Best for a permanent mount in a classroom or boardroom.	For a permanent mount in a classroom or boardroom.	Best for traveling trainers as the system is portable. Suitable for a permanent mount against the board in a classroom/boardroom	Best for use on large scale areas	Best for traveling trainers as the system is portable and can be used on a wall surface. Great ease of use - simply insert your flash drive presentation.	Best for use in boardrooms or classroom. This system should be mounted against a concrete wall

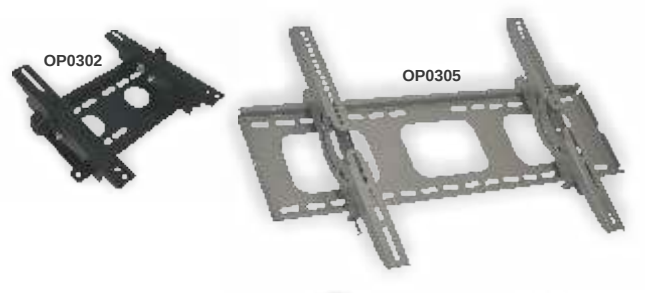
DLP/LCD Ceiling Mounting Bracket

CODE	DESCRIPTION	
OP0300	DLP/LCD Ceiling Mounting Bracket	
OP0302	Mounting Bracket Wall LCD Panel	14" - 26"
OP0305	Mounting Bracket Wall LCD Panel Tilt	32" - 60"
OP0310	Mounting Bracket Wall LCD Panel Swing Arm	14" - 40"
OP0320	Projector Lift Ceiling Recessed	

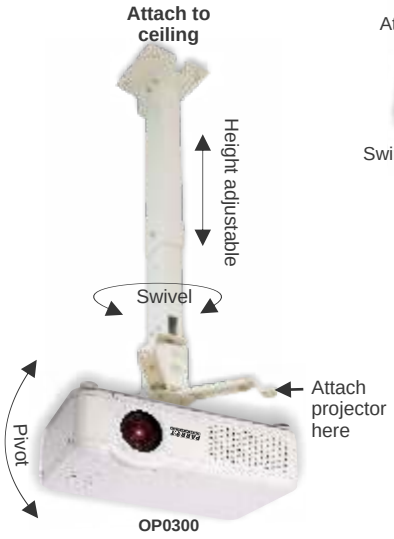


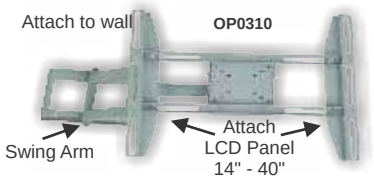
OP0300 Product Features

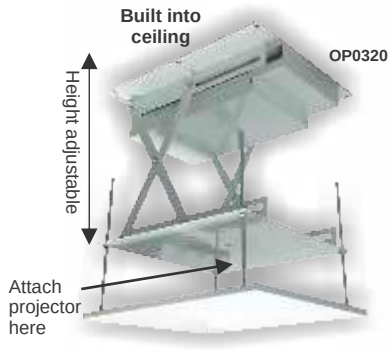
- Height and angle adjustable.
- Safe and secure.
- Fits most DLP/LCD Projectors.
- Height adjustable from 400mm to 600mm.
- Projector not included.

OP0320 Product Features

- Remote controlled, electronically operated.







Overhead Projectors
Uno 250

CODE	DESCRIPTION
OP0202	OHP Parrot Uno 250
OP0500	Fuse Glass Uno 250 3A / 250V AC
OP0501	OHP Lamp Replacement 24V / 250W

Product Features

- Desktop transmissive, metallic and plastic combination case.
- Fold away arm and head.
- Head rotates 360° and has a tilting angle of 0°- 65°.
- Auto turn-off overheat protection.
- Non-stop usage for 8 hours.
- Dual lamp.
- Lens: 1 element.
- Power: AC110V or 220V.
- Power cord: 5m.
- Net weight: 10kg.
- Dimensions: 380 x 410 x 255mm.
- Focal length: 280mm.
- Aperture: 250 x 250mm.
- Lumens: 2800.
- Projection distance: 1.5 - 3.2m.
- Ideal for classrooms.
- Lamp Life: 3000hrs

Replacement Lamp
